

Why

do

people

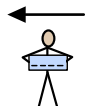

look like

that?

There is an illness

called

Coronavirus or COVID-19

which can make

me

feel unwell.

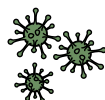

To

stop

me

getting the

virus,

the

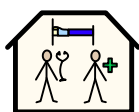

people

who

work in

the

hospital

are

wearing

aprons,

gloves,

masks

and

visors.

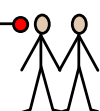

It is

hard

to

see

their

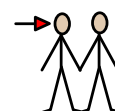

faces

and to

see

that

they

are smiling.

I

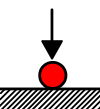

should not

feel worried.

Everyone

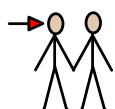

is here to

help

me

and

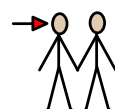

they

are

kind

and

they

are

smiling.
