

 
Coming back to college

 is  starting again  March 8th 2021.

 I will  see some of  my  friends and  class  team again.

Some things will be  different. That's  ok. It is to  help  everyone

stay safe.

At college the  staff  will be  testing 2 times each  week to

 help  keep  everyone  safe.  We will also be  using:

•Class bubbles

•Cleaning every hour

•Regular hand washing and sanitising

•All staff wearing face masks/shields throughout the college

•Face shields when supporting with eating and drinking.

•Staggered start and finish times

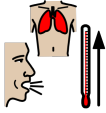

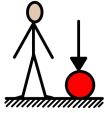

To help keep everyone and the college safe, I need to

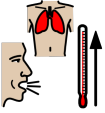

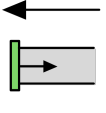

try and bring a labelled water bottle and a packed lunch.

It is important that if I or anyone in my household develops

 symptoms of COVID-19,  I  stay at  home for at least  10 days

from the  date  symptoms  started.

If  i  need  help or  information I can  ask  Kelly Phillips, our

Principal.
